Laws may be good, but yet as Spiders draw
Mortal poiſon out of the ſweeteſt Flowers,
So many do by craft abuſe the Law,
And ſtrive to make it truckle to their powers.
'Tis a grand Breach of Charity we know,
To wound a whole Profeſſion at a Blow.

This is the year wherein the Famous Conjunction of the Superior Planets, is celebrated in the Regal Sign *Leo*, and will doubtless have very remarkable effects throughout the *European* World, as some few years will sufficiently manifest.

And this month is attended with five Oppositions of the Planets, which ('tis to be fear'd) may influence new Divisions near about this time; for the Factious and Phanatick Spirits are not much discomposed.

Various are the Transactions of this Month, and as uncertain News or Intelligence daily arrives from divers Places. Many great Persons variously censur'd, and sudden Accusations afresh break out now or near this time, many disputes and malicious clammers amongst Persons of the first Magnitude. The Configurations of the last Month have still Opperations in this: *Saturn* in *Leo* begins to shew his Dire influence yet we hope that the gentle Influence of *Jupiter* may somewhat mitigate his fury: great dissenting in Judgement amongst some persons of the greatest Quality and in the highest Places. The Vulgar Man remains full of fears, and not without just Cause, all People fear a sickly Summer, and by this time perceive something of the Effects of the last Comet. Scandalous Papers and Libels are emitted to the abuse of the Government & it will be so.

Several guilty Persons ly dormant and Abscond, fearing a fatal Discovery, and His Holiness is not a little perplexed. *Nostra te ipsum.*

Every Prince & State is carefull of his own interest: now or near this time expect an Agent or Ambassador, who should be very industrious to compose some Differences and have a right understanding of some matters of moment now under dispute, yet we discover great dissembling and dissenting in Judgement amongst Persons of great Quality. God continue peace in *England* and all the Kings Dominions.

We may now expect to hear of notable Consultations at *Rome* amongst the Pope, Cardinals, and *Jesuites*, wherein *Fraunce* and *Spain* are much concern'd, and His Holiness himself possest with many fears and trouble of Spirit. Many fear also that some sad distrous fatal things is near us, we hope the contrary, and that God will divert His Judgements that are now hanging over our heads, and direct our Grand Councils in those great Affairs now controverted in this Nation.

Many are the Configurations of the Planets this Month, whose Influence (together with more Superior Causes) may excite the generality of men to great Controversies and Contention amongst themselves. Persons of no mean Quality are now censur'd, and we have variety of News from Foreign Parts though much of it contradicted. Many Plots and secret contrivances still on foot, let the Projectors beware, for Treachery, Knavery, and Fraud, seldom go unpunished. —— Now are the Factious and Phanatick Spirits quiet, but still endeavour to promote their own clandestine designs.

Some deserving Person now or near this time is honored with Preferment.

Many are the serious Consultations & Debates of Grave and Sober Persons, and about this time there are divers eminent things both publick and private transacted, and many painful indeavors are used to settle and compose Irregularities both Domestick and Forreign, and we may rationally hope that those persons concern'd in these matters may happily attain their ends, yet we must still expect a secret murmuring amongst the People who too frequently torment themselves with vain Fears and Jealousies.

If some hot spirited Persons rashly act against their own Interest who can help it? Some solar Person receives a severe check or is discarded for his crimes, and turn'd out of Favor, the case seems dangerous. I wish the minds of men were better compos'd and not so much inclin'd to madness & folly—I hope the prudence of our Governors & Magistrates will take care to correct their extravagancy.

The Merchant is in good hopes of prosperous returns nor has the active Martialist cause to complain.

1	f	We may very	neck	12	40	4	m	21	This Month begins very hopefully as to Mundane Affairs, for there appears much harmony amongst the Celestial Bodies, and consequently portend no less amongst men, and therefore we may justly hope that some happy accident may intervene much to the content of the people in general. There is great probability of a happy composure of some late differences, and a right understanding will appear of such matters and things that have long been in dispute: and this Fortunes wheel is continually turning. Other things might have been intimated, but *Bertlardus non videt omnia*, yet *Tempus omnia revelat.*

Of

Of the Eclipſes this Year 1682.

THere will be five Eclipſes of the Luminaries this Year, three of the Sun and two of Moon, and but one only one of the Moon viſible in our Horizon.

The firſt is a ſmall Eclipſe of the Sun *Jan.* the 28. at 3^{h} 40^{m} *poſt merid.* not viſible to us.

The ſecond is a total and almoſt central Eclipſe of the moon viſible to us *February* 11. the beginning at 8^{h} 54$'$ the middle at 10^{h} 46$'$, and the end at 12^{h} 38$'$ *p. m.*

The third is a partial Eclipſe of the Sun *July* 24. 9^{h} 2$\frac{1}{2}$ *manè*, but to us inviſible.

The fourth is a total Eclipſe of the Moon (and if the air be clear ſome part may be viſible to us) it falls *Auguſt* the 8. the beginning at 4 in the morning, the middle at 55 min. paſt 5, the end 51 min. paſt 7 *manè*.

The fifth and laſt is a ſmall Eclipſe of the Sun, *Auguſt* the 22 at 5^{h} *p. m.* not viſible to us, and therefore the leſs conſiderable.

In *October* about the 23^{d} will be celebrated a moſt famous Conjunction of the Superior Planets, *Saturn* and *Jupiter*, which will have as ſignal Effects for ſome enſuing Years; it falls in *Leo*, a Regal Sign, and 'tis ſeconded with a Conjunction of *Saturn* and *Mars* in the ſame Sign in *September* following, and worthy to be obſerved.

THe Spring this year initiates *March* the 10th 4h 51′ 48″ *manè*, as appears by Calculation from the *Caroline Tables* as followeth,

In the next place I shall present the Reader with a brief Astrological Judgement upon the Schem it self, consideration had to some other concomitant Cœlestial Causes and Influences of the Superior bodies.

The two Superior Planets have now changed their Signs and ☉ defluxes from a △ of ♂, and applies to a △ of ♄ with many other, for I cannot here repeat every particular.

The People are now more fixed and settled in their Judgments and Resolutions than they have been for some late years past, they are not so much subject to fears and Jealousies as formerly, but begin to be hardened, and in some measure resolute to spend their Lives and Fortunes in the defence of their King and Country; which is a very Noble Resolution and very well becomes a true and free-born *English*man.——I cannot say that we are yet free from farther Conspiracies, Plots, or Sham-Plots, or whatever they may be termed; for there is a discontented Party that still lie in Ambush to act their malice and farther villany, which I hope Providence will most happily discover, and thereby frustrate their hellish designs, as hitherto it has pleased God to do even to admiration.

We have lately been warned by a most terrible and Prodigious *Comet*, that some other vengeance hangs over our heads, and we know not how many thousands in *Europe* may be swept away by some general mortality before this and the next two years are expired, this *Comet* is seconded with as remarkable a Congress or Conjunction of the superior *Planets* in that regal Sign ♌, as has happened some hundreds of years, and since from our own experience we can testifie such *Phænomenons* have not appear'd in vain, but have been Harbingers to forwarn us of some impending Calamity, as the late War, Plague, and Fire, *&c.* what can we than expect less, than some such dreadfull Judgement too near approaching.

Of the Summer.

THe Summer ſeaſon is well known to begin always when the Sun toucheth the firſt point of *Cancer*, making then Longeſt days and Shorteſt nights unto us that live on the North ſide of the *Æquinoctial*, and this Year it initiates *June* the 11, at 30 minutes paſt 5 in the morning. This Quarter is naturally hot and dry, therefore thoſe of a Cholerick conſtitution ſhould be moſt ſubject to diſeaſes and thoſe which are Flegmatick more healthfull; yet both thoſe Conſtitutions I fear will this Year ſuffer by the malignity of ſome Epidemical Diſtemper which may unhappily break out this Summer. Now to preſerve health eat ſuch meats as are eaſily digeſted, and rather riſe with an appetite then over-charge the Stomach; for it is now more weak then in the Winter quarter, and therefore ſlower of digeſtion, and requires ſuch cold meats which may moiſten and mitigate the nature of the ſeaſon.

Of Autumn.

THe *Autumnal Æquinox* or Harveſt Quarter begins always when the Sun toucheth the firſt point of *Libra*, making then the Days and Nights equal, affording to all parts of the World (except under the Poles) as much ſhaddow as Sun ſhine; and this Year takes beginning *Septemb.* the 12, at 9^{h} 0^{m} *p. m.* or afternoon. This ſeaſon is naturally cold and dry, and therefore thoſe of a Sanguine Complexion ſhould enjoy their health well, and the Melancholly Perſon moſt ſubject to diſeaſes. Now you may eat what meat or fruit your Appetite deſires, and 'tis alſo good to Purge and Bleed, and in your Broaths uſe Cordial powders, which will preſerve the Body till the enſuing Spring.

Of Winter.

THe Winter Quarter or *Solſtice* begins always when the Sun having finiſhed his greateſt Southern Declination, makes his approach to us again; and at the ſame time makes the greateſt quantity of Shadow, and leaſt portion of Sun-ſhine

unto us, that is, makes the days shortest and the nights the longest to those Inhabitants which live on this Northern side of the *Æquator*, (that is when the Sun touches the first Scruple of the Tropical Sign *Capricorn*) which this Year happens *Decem.* the 11, at 51 min. past 8 in the morning. The natural temperature of this Quarter is cold and moist, and therefore aged Phlegmatick Constitutions are most subject to distempers, and Youth and Chollerick people enjoy their health best. In *Decemb.* Melancholly and Phlegm must abound and encrease in Humane bodies, therefore let all Persons be carefull to keep their heads and bodies as secure from cold as may be, and eat such Broaths or Meats that are of a hot quality, for whilst there is life there is hopes we may live, to a considerable Age, and the thoughts of Death is certainly more terrible then Death it self; but however let all men remember, they must certainly die, and after death come to Judgement, *&c.*

In all thy glory
Memento mori.

A short Discourse of Physick and some Professors.

PHysick in its purity hath much dependency, (*viz.* the principles thereof) upon *Astrology*, and *Galen* himself confirms this Assertion; but whosoever is a Professor thereof, and understands it not so; *viz.* Astrologically (though many Physicians conceal their knowledge therein) cannot well pretend to any perfection or become famous in that knowledge, no more than some cunning Old Women that have a very excellent knack in the application of their Medicines scrap'd from some old Manuscript or Book of Receipts. —For without Reason and Expetience 'tis a Science most dangerous and destructive, and to deal with humane nature, and to be unacquainted with what it is the Epitome of, is plain *Andabatarum more*, or fighting blindfold, the blind may hit the mark which many think is enough Neither are those Physicians to be esteemed (let them

pass

ny respect be otherwise qualified,) who too passionately embrace the Principles of either *Galenists* or *Chymists*, for such men continually affront Experience, to gratifie passion or interest; but if we give them their due, they are the rare men, and as for their Medicines none are like them: for if they are deficient in Energy, the defect is supplyed with Commendations, yet sometimes even themselves, aswell as others find them to be but treacherous supporters of Life. A Physicians best support is an experimental and unbyassed Reason, and without that no *Physician* can be safe; for both in the *Chymical* and *Galenical* practice are many wholesome good and profitable *Medicines*, which they on both sides Damn, but if used by any one that is impartial and indifferent, will be found to out do some of their greatest *Arcanums*: and as for my own part 'tis neither the *French* mode of *Philosophy*, or *German* mode of *Physick*, that I any farther admire than I find consonant to reason and truth.

1. A *Physician* is Natures servant, and therefore he ought to be well acquainted with her, that he may the better understand all her various dictates: and how this is to be done, those two parts of *Physick* that the School-, and Natural *Astrology* doth teach, will sufficiently instruct: for *Astrology*, *Anatomy*, *Pharmacy*, the Naturals and non Naturals of the Schools are the best and surest Rudiments of this Art.

2. All natural Diseases have but three Originals primarily, although from thence arises multiplicity of forms: the First Cause is *Astral*, the Second is *Venom*, the Third is *Tartar*, and these Causes do not seldom complicate, which is always so in all Epidemical Distempers.

3. To separate the Pure from the Impure in every respect is the chiefest Intention of *Physick*, and therein is Comprehended a Speculation of a more serious tendency then is vulgarly known.

4. The Face is that which discovers the very inward Inclinations of the Soul, and not only so but it truly tell us most exactly the qualifications of the Spirits, and also how they are in particular affected; but some *Anatomists* deny the Spirits, with many reasonless Arguments.

5. In

5. In the face alſo appears always the moſt certain Symptoms of Life and Death, and what is the Quality of that *Venenum* that obfuſcates the Spirits; for their Center is *Sol in homine* whoſe Parent is the Coeleſtial Sun.

6. Drinks that are well prepared from true and proper Specificks are always known to be moſt prevalent for the Cure of Chronical Diſeaſes, nor are they improper in thoſe that are acute.

7. If the Moon be Increaſing and in Conjunction or ill Aſpect of an Infortune at the *Decumbitur*, the Patient from ſuch a poſition will have a ſevere time of it, and often ſuch a Sickneſs ends in Death.

Excellent Notes of Husbandry and Gardening for each Month in the Year.

January.

IN this Month cut down Timber (and it ſhall not cleave nor be eaten with Worms: in the laſt quarter of the Moon ſet or ſow Kernels and Bay-trees, Primet and Box; ſet Quick-ſets, Roſe-trees, Peaches, Philberts & Plumb-trees, if the froſts be not too hard, prune and lop them: before full Moon ſow and ſet Beans and Peaſe, and dung Land: in the laſt quarter geld Cattle to rear, fallow Land for Wheat and Rye, trench Gardens with dung, and remove Bees: and for your own health keep your body warm, let good and wholſom Diet be your Phyſician, moderate exerciſe and labor your ſawce to cauſe Appetite.

February.

Sow all ſorts of Peaſe, and other Pulſe; ſow Muſtard ſeed, caſt up Dikes, ſet and plant Vines, Hops, Gooſberries, and any Fruit that grow upon Boſhes; prune and trim all ſorts of Fruit-trees from Moſs, Canker, and all ſuperfluous branches, graff in the latter end of the Month, ſow Onions in cold ſtiff Land; take heed of cold, forbear Phlegmatick meats.

March.

In the new of the Moon (the wind any way but South or Weſt) graff Pears, Wardens or Apple-trees, make an end of ſowing all manner of Pulſe, and begin to ſow Oates, Barly, Parſnips, Onions, Carrots, Cucumbers, Melons, and all kind of Pot-herbs, ſlip Artichoaks and Sage, geld Lambs, let Bloud according to ſtrength and neceſſity, the Sign and weather being alſo fit (but repair to the Learned Phyſician) look what cannot be cured in the Spring by Phyſick, will hardly be cured all the Year after.

April,

April.

Sow Barly, Hemp and Flax, Pole Hops, ſet and ſow all kind of Garden Herbs, open Hives, and let Bees labour for their living, let Tanners now provide them with Bark, and all good Houſwives look to their Dairies, bleed and purge with advice: thoſe that are troubled with Aches or the Gout, let them go to the Bath in this or the three following Months.

May.
